

LifeNet
Network for Geomancy and Transformation

MEDITATION OF THE MONTH AUGUST 20TH TO SEPTEMBER 20TH 2010

Proposed by LifeNet - Network for Mutual Inspiration between Earth and Humanity

During the 2nd International Creative Gathering of Network of Life (LifeNet) at Meinberg, Germany the group of 186 participants created a vessel composed of all living beings of the Earth, visible and invisible, standing in circles around the invisible center. The vessel is centered around the eternal flame of life flickering at its core. The group printed this imagination into the universal memory by positioning itself again and again in this constellation, following a corresponding guided meditation.

We decided upon this constellation to become our common tool to support the Network of Life upon and within the planet.

We can not foresee what kind of difficult situations may occur during the following years: when the transmutation process of the Earth, its bio-sphere, and human civilization progresses. Even if electronic and other forms of communication among us may be broken, we have created a tool that we can implement in each moment without calling each other up, asking what to do.

We should step into the constellation of the circles representing the Network of Life upon the planet and proceed with our meditation as we feel is right at the given moment. Yet using the same constellation pattern we are not isolated persons but represent a united power and love of many individuals worldwide.

The following Meditation of the Month intends to offer the experience of the Network of Life also to those interested who were not present at Meinberg. Secondly its intention is to strengthen the created constellation - which I consider to be a cosmogram.

- *Be aware of your participation within the Network of Life and feel within your heart space your co-responsibility for its undisturbed pulsation.*
- *Feel at your side all other participants of the community of life of the Earth and Universe, all beings visible and invisible. Imagine that we are standing at different levels in circles around an invisible center.*
- *Each one of us is connected to the center of the circles through a light beam emanating from one's heart. Feel its presence within yourself and be aware of the emanation from others.*
- *Be aware that the planet Earth is rotating within this eternal Flame - not only at the center of the circles but also within the core of your heart.*
- *Be free to simplify the meditation or to transform it according to your intuition, without changing its basic pattern.*

Dear friends of the Earth Cosmos!

Some years ago I started proposing the Monthly Meditation to give a regular impulse towards a common focus for the coming month.

According to my experiences and insights our planet Earth is in a process of profound transformation to become a pluridimensional planet which I use to call "Earth Cosmos".

Since 1998 I am observing an astonishing process through which the Earth's materialized planetary body enters a fusion with parallel planetary spheres that are invisible to us human beings at present - we even largely deny their existence.

The worldwide appearance of unusual catastrophes can be seen as a shadow side of this process.

The purpose of the Meditation of the Month is to inspire us towards common and conducted spiritual action to support the Earth's process of change, and to cooperate with it by exploring processes of change within us individually.

I believe that the Earth invited us human beings, amongst others, to take part in her evolution to have at hand a creative device to help her to reach the next step of her evolution. And we are a fantastic creative machine, indeed!

So let us use the creative capacities of our imagination as an open group, to give this service to life at this moment, when it may be needed more than ever before.

Please note that the Meditation has always an introductory text that allows you to create your own version of it - but please follow the same theme.

During the 2nd International Gathering of the Network of Life (LifeNet - Geomancy and Transformation) at Meinberg, Germany in July 2010 it was decided that the Meditation of the Month becomes one of the projects of the LifeNet. I got support of a group of individuals to be able to choose the right meditation for the right moment.

Meditation of the Month is being translated into German and some other languages. The German translation can be obtained if you ask, sending your Email-address to: lebensnetz-geomantie@gmx.net, the Slovenian to: drustvo.vitaaa@gmail.com.
